**DECISION ON  
PETITION  
UNDER 37 CFR 1.182**

This decision is in response to applicants' "Second Petition under 37 C.F.R. 1.182" ("Pet.") filed via facsimile on 11 August 2003 and again on 09 September 2003. The \$130.00 petition fee has been paid.

**BACKGROUND**

On 10 September 2001, applicants filed for entry into the national stage in the United States under 35 U.S.C. 371. Applicants listed the international application number as PCT/EP00/01575 on the transmittal letter (Form PTO-1390).

On 25 October 2001, the United States Designated/Elected Office (DO/EO/US) mailed a Notification of Missing Requirements Under 35 U.S.C. 371 (Form PCT/DO/EO/905) indicating that a declaration in compliance with 37 CFR 1.497(a) and (b) must be provided.

On 21 December 2001, applicants filed an executed declaration listing the international application as PCT/EP00/01517.

On 29 January 2002, the DO/EO/US mailed a Notification of Acceptance of Application Under 35 U.S.C. 371 (Form PCT/DO/EO/903) advising applicants that the 35 U.S.C. 371 requirements were satisfied for the national stage of PCT/EP00/01575 on 21 December 2001.

On 14 February 2002, applicants purportedly filed a request to change the PCT reference. The request is not located in the file and there is no indication that this request was acted upon.

On 11 August 2003, applicants filed the instant petition under 37 CFR 1.182 via

facsimile.

On 09 September 2003, applicants resubmitted the petition filed 11 August 2003.

### **DISCUSSION**

Applicants maintain that "when claiming priority of the PCT International Application on the transmittal letter, a typographical error was made, thereby resulting in reference to the wrong PCT International Application." Pet. at ¶ 2. Accordingly, applicants request to "correct the error which was made unintentionally and without deceptive intent." *Id.* at ¶ 1. Applicants also request that "the claim of priority for the above-identified non-provisional application be changed to PCT International Application PCT/EP00/01517." *Id.* at ¶ 3. Applicants also seek a corrected filing receipt changing the title to "Method of Producing a Hot-Rolled Strip."

A review of the above-captioned application file revealed that the wrong international application number, *i.e.*, PCT/EP00/01575, was designated on the transmittal letter filed with the national stage papers on 10 September 2001. However, applicants did provide a copy of international application PCT/EP00/01517 as published, a preliminary amendment referencing PCT/EP00/01517 and Information Disclosure Statement referencing PCT/EP00/01517 on 10 September 2001. Applicants then submitted a declaration referencing PCT/EP00/01517 on 21 December 2001.

Nevertheless, the DO/EO/US mailed a Form PCT/DO/EO/903 and filing receipt on 29 January 2002 indicating an international application number of PCT/EP00/01575.

A check of PCT/EP00/01517 shows that it has the same title, inventors, priority date and description as was submitted on 10 September 2001. Therefore, it is clear that a typographical error was made on the transmittal letter. Applicants submitted authorization to charge the required petition fee of \$130.00 to Deposit Account No. 16-2500 with the instant petition.

Applicants have met all the requirements of a grantable petition.

### **CONCLUSION**

For the reasons listed above, applicants' petition under 37 CFR 1.182 to correct the PCT application number is **GRANTED**.

The Notification of Acceptance of Application Under 35 U.S.C. 371 (Form PCT/DO/EO/903) mailed 29 January 2002 recorded the wrong international application number and priority date for the international application. Therefore, it is hereby **VACATED**.

This application is being forwarded to the DO/EO/US to mail a corrected Notification of Acceptance of Application Under 35 U.S.C. 371 indicating the correct international application number and a priority date of 13 March 1999, and then mailing a corrected filing receipt. The application will then be forwarded to Technology Center 1700 for further processing.

---

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
